Mr. V. B. PALMER is agent for these papers. Advertisements left with him will be immediately forwarded.

McFarland's BURGLAR and FIRE PROOF SAFES!

THE undersigned would respectfully call the attention of the public to the above unequalled safe guard of property—possessing against the devouring element of fire, and also the most skillful burglar. To MERCHANTS, JEWELLERS, and BANK DIRECTORS, we would only say examine them and the proofs, and you will be convinced of their superiority over all other manufacture.

Our business is done in a plain, straightforward way, without resorting to humbug or undue puffing. Below is one of the many testimonials we are daily receiving from all parts of the country, and which speaks for itself. Messrs. Pond, & Hitchcock's Oil Store was situated directly under the Pearl-st House, and was totally consumed in the great fire of August 23d.

NEW YORK, Aug. 25, 1853.

Messrs Wm McFarland & Co.

Gents—It affords us pleasure to inform you that the Fire and Burglar Proof Safe we purchased of you, preserved our books and papers, in the midst of the Pearl-st House, last evening, in the most perfect manner. Although it was exposed throughout the fire with burning Resin, and other oils, and directly under a building in flames, in the most intense heat, it remained true to its word, and its contents when taken out were not even scorched, and hardly took the smell of fire. To any one who is in want of a safe for Safe, a perfect safeguard against fire we can actually recommend your manufactory having had a personal experience of their excellency. Yours truly,

D. F. POND & HITCHCOCK.

Our Depot, where specimens of all kinds and sizes can constantly on hand for sale.

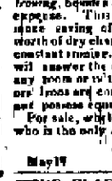
PATENT SELF HEATING

SMOOTHING IRON.



MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of man by machinery and other modern implements; but females have been nearly neglected until the introduction of the *Patent Self Heating Smoothing Iron*, which will relieve them, in a very great degree, from the excessive and fatiguing labor of *Ironing*, besides being a great saving of time and expense. This Iron combines economy, convenience saving of labor, and dispatch; one cent's worth of dry charcoal is sufficient for a whole days' constant ironing. Hard wood coal from the above will answer the same purpose. It can be used in any room or in the open air. Hatters' and Tailors' Irons are constructed upon the same principle, and possess equal superiority.

The Angel's Story.

(From Household Words.)

CONDUCTED BY CHARLES DICKENS.

Through the blue and frosty heavens,
Christmas eves were shining bright:
The glistening homes of the great City
Alit past mate of their gleaming light;
And the winter earth was lying,
Long ago one Christmas night.

While from every tower and steeple,
Pealing bell and sounding clear,
(Never with such tones bi glad in deed,
Save when Christ winns friends near)
Many a one that night was merry,
Who had toiled through all the year.

That night was old wrongs forgiven,
Friends, long parted, reconciled;
Voices, all unused to laughter,
Eyes that had forgot to smile,
Anxious hearts that feared the morrow,
Freed from all their cares awhile.

Rich and poor felt the same blessing
From the gracious season fall;
Joy and plenty in the cottage,
Peace and feasting in the hall;
And the voices of the children
Ringing clear above it all!

Yet one house was dim and darkened;
Gloom, and sickness, and deep grief
Abiding in the gilded chamber,
Climbing up the marble stair,
Stilling feet in the house of mourning—
For a child lay dying there.

Silken curtains fell around him,
Velvet carpets hushed the tread,
Many costly toys were lying,
All unheeded by his bed;
All unheeded by his bed;
And his tangled golden tringlets
Were in downy pillows spread.

All the hall of that great City
To save that little life was vain;
That little breast from being broken;
That little world from being spoken;
Nay, the very mother's pains,
And the mighty love within her,
Could not give him health again.

And she knelt there still beside him,
She alone with strength to smile,
And to promise he should suffer
No more in a little while,
And with unrequited song and story
The long weary hours beguile.

Sudden yet unseen Presence
Checked the constant mourning cries;
Stilled the little heart's quick fluttering,
Bound the blue and wondering eyes,
Fixed on some mysterious vision,
With a startled sweet surprise.

For a radiant angel hovered
Smiling o'er the little bed;
While his raiment, from his shoulders
Snowy drooke like pinions spread,
And a starlike light was shining
In a Glory round his head.

While, with tender love, the angel
Leaning o'er the little nest,
In his arms the sick child folding,
Laid him gently on his breast,
Sobs and wailings from the mother,
And her darling was at rest.

So, the angel slowly rising,
Spread his wings; and through the sky
Bore the prize child, and held him
On his heart with loving care,
A red cluster of blossoming roses
Flowing softly by him there.

While the child thus clinging, floated

Downward on your golden hair;
And the loud eyes watching over you,
And read, before spread before you,
Told, a House's Hope was there.

"When your servants, tired of seeing
His pale face of want and woe,
Turning to the ragged Orphan,
Gave him coin and bade and him go.
Drew his cheeks so thin and wasted,
Bitter tears began to flow.

"But that look of childish sorrow
On your tender young heart fell,
And you plucked the fairest roses
From the tree you love so well,
Passing them through the stern grating
With the gentle word, 'Farewell.'

"Dazzled by the fragrant treasure
And the gentle voice he heard,
In the poor forlorn boy's spirit,
Joy then eagle Sabbath stirred;
And his hand he clasped the flowers,
In his heart the living word.

"So he crept to his poor garret,
Poor no more, but rich and bright;
For the holy dreams of childhood—
Love, and Rest, and Hope, and Light—
Flocked round the Orphan's pillow
Through the starry sumptuous night.

"Day dawned, yet the vision lasted;
All too weak to rise he lay;
Did he dream, that none spoke harshly—
All were strangely kind that day?
Yes; he thought his treasured roses
Must have charmed all ills away.

"And he smiled, though they were fading
One by one their leaves were shed;
Soon bright things could never perish
They would bloom again, he said.
When the next day's sun had risen,
Child and flowers both were dead.

"Know, dear little one! our Father
Does no gentle deed disdain;
And in Roses that bear in heaven,
Still all tender thoughts remain;
Love on the cold earth remaining
Lives divine and pure again!"

Thus the angel ceased, and gently
O'er his little burthen leant;
While the child gazed from the shining
Loving eyes that o'er him bent,
To the morning rose by him,
Wondering what that mystery meant.

Then the radiant angel answered,
And with holy meaning smiled;
"Ere your tender, loving spirit,
Sin and the hard world defiled,
Mercy gave me leave to seek you;
I was once that little child!"

MONDAY, FEB. 6, 1854.

Election of Governor—William G. Crosby Reelected.

We received yesterday a telegraphic dispatch announcing the election, by the Senate of Maine, of the present Chief Magistrate of the State, Hon. William G. Crosby, Govenor for the ensuing year. Mr. Crosby was the Whig candidate for this honorable position.

The proceeds upon us of the telegraphic news from Europe leaves us neither time nor space to say anything more than a mere announcement of this result.

A salute of fifty guns from a field piece was fired in this city, under the direction of A. Hayford, Esq., on the promulgation of the news of the election of Governor. Mr. Hayford is a Democrat of the old line. It would be unfair, perhaps, to infer that he had become a Whig, as this rejoicing would seem to indicate, and we suppose that his portion of the joy is that Mr. Morrill has been defeated.

☞ The seven Senators of Maine, who delayed the organization of the state government for several weeks, insisting that they were right in every step and even claiming, by themselves and their party presses and their political friends that all their action and head fully sustained by the Supreme Court and were about to resign, rather than submit to the result, after all the beard has been cut off, under the necessity of making a movement to place themselves with their own view of the Court's opinion and backed square out of the position and proceeded to organize anew by the choice of officers throughout. This was a public confession of their distrust in their action and the fact of a difference between their action and what they claimed to be the sanction of the opinion of the Court.

Now is this, all? They have never gone still further and instead of obstinately and mutually insisting upon their right to form two Governments, will less than all the members of the Senate, they have come down from their assumed stilts and agreed upon all the measures and they have been filled.

These movements prove beyond all question or doubt that the seven Senators were in the wrong, or that their persistence in the wrong consisted the delay and expenses that the action of the Court has adverse to their action and that the House was willing, as it all along has been, to discharge its duty whenever the seven Senators would consent to perform their Constitutional duty. We state unpolitical plain points in order that they may be fully understood and borne in mind as a part of the history of reckless political leaders.

Ship Building in Maine.

☞ We find in the Portland State of Maine a statement of the ship building in the districts of Passamaquoddy and of Penobscot, during the year 1853, as furnished by the Collectors in those districts.

In the Passamaquoddy District there has been built as follows:—

				Tons.
11	Ships,			10,400,37
7	Barques,			3,43 16
11	Brigs,			2,214,77
1	Schooner,			164,00
1	Sloop,			11,16
1	Steamer,			66,55
32	Vessels.	Total tonnage,		13,09-,69

Built in 1852, 43 vessels, tonnage 13,208 94
" 1851, 47 " " 11,221 82

In the Penobscot District the following is the result:—

				Tons.
2	Ships,			1,779,66
1	Barks,			286,22
1	Brigs,			1,359,51
19	Schooners,			3,838,79
2	Sloops,			169,45
26	Vessels.	Total tonnage,		8,439,53

Slander is more accumulative than a snow ball. Lie like a ball, which everybody will season to his own taste, or tag of things to it as he offers it.

Mr. Lovejoy's Lectures.

We have barely time to say that Charles Lowell, Esq., of Ellsworth, one of the most accomplished men and forcible writer and eloquent speaker in Maine, all the result of the high endowment of heaven and his own indomitable perseverance, will deliver a lecture at the City Hall on this evening. Do not fail to hear him.

☞ A telegraphic dispatch was received in this city on Saturday evening stating that seventy Pilsbury Democrats in the Senate voted for Mr. Crosby, for Governor; together with Mr. Stark of Kennebec, the two Whig Senators from Somerset, and Clark, of Lincoln.

The 44th Annual Meeting of the Penobscot County Missionary Association.

The Seventh Annual Meeting of the Penobscot County Missionary Association Auxiliary to the American Missionary Association was held in the Vestry of the First Parish Church in Bangor, on Wednesday, February 1, 1854, agreeable to previous notice.

The President of the Association, Deacon Alexander Drummond, called the meeting to order, and read from God's Word the seventy-second Psalm.

Prayer was offered by Deacon O. H. Ingalls, and after singing the Hymn—

"The morning light is breaking"

the records of the last annual meeting were read by the Secretary.

The Treasurer, Deacon James Allen, presented his Report, showing the total amount of receipts to be $33 1,62; balance in the treasury, $27,05.

Nathaniel Hayhow, Oliver Farrington, and Nathan Haddock, were chosen a Committee on Nominations.

S. F. Brown, James Allen and Rev. George W. Fargo were chosen a Committee on Resolutions.

The Report of the Corresponding Secretary being called for, Deacon James Allen announced that the Corresponding Secretary, Deacon George A. Thatcher, was unavoidably absent from the city, and he hoped to offer a "Substitute for a Report," which he now presented, giving a glance at the origin, progress and present condition of the Parent Association, and the Auxiliary.

The Report was accepted and ordered to be placed on file; after which some remarks were made by the Treasurer and Rev. Mr. Fargo on the subject of "non-fellowship with slavery."

Adjourned to half past two o'clock.

AFTERNOON SESSION.

Met according to adjournment.

Gen. Simon Nowell was chosen President pro tempore.

Prayer by Rev. Mr. Fargo.

The Committee on Nominations reported a list of officers, which Report was accepted and adopted, by which the following persons are constituted the officers of the Association for the ensuing year:

Hon. Alexander Drummond, Bangor, President.

Rev. Charles G. Torrey of Bangor, Joseph R. Perkins of Lee, Vice Presidents.

Dea. O. H. Ingalls of Bangor, Recording Secretary.

Dea. George A. Thatcher of Bangor, Corresponding Secretary.

Dea. James Allen of Bangor, Treasurer.

A. H. Merrill of Williamsburg, Rev. Philip Weston of Bangor, Thomas A. White of Bangor, Executive Committee.

Asa Davis of Bangor, Auditor.

The Committee on Resolutions reported five resolutions which, report was accepted and the resolutions taken up for discussion.

LABOR UNIONS.

Resolved, That the principle of action engendered by God on man, "That ideal love thy neighbor as thyself" can never be carried into effect by social enterprises, while an adverse principle is tolerated in the least degree. In it is, we believe that our Association differs from the American Board of Commissioners for Foreign Missions, and, therefore, while we accord to that noble institution more than its great, good and lovely, we regret that we cannot fellowship with them in all the course, while they join hands with the oppressor, and the oppressed is not suffered to go free.

2. *Resolved*, That the Gospel once known to mean by admission from Heaven, a pure and spotless, and that as the mission of the Church Militant is to preserve this Gospel in its original purity, and to spread it universalized, unfettered, over all the earth, for the glory of God and the salvation of men; therefore no Organization or body of Christians who believe that the buying, selling and holding in servitude "man as property," is a sin—an, for a moment to exist in any under any pretentions.

3. *Resolved*, That we can see no features in American slavery that commend it to Christian sentiment—"It is evil—only evil and that continually."

4. *Resolved*, That churches that freely "receive him to the fold of Christ, both the master and the slave," seem to set at nought the intention of the Divine command, "Have no fellowship with the unfruitful works of darkness, but rather reprove them."

5. *Resolved*, That we have and maintain confidence in the American Missionary Association, and believe its principles will bear the scrutiny of the world; and that they have the approval of our final Judge. We rejoice in the success which has attended its Missionary operations and pledge to it our continued and cordial support.

Remarks were made by Messrs. S. F. Brown, Fargo, Hardy, Ingalls, Allen and others, after which the resolutions were unanimously adopted.

Messrs. Drummond, Ingalls and Allen were chosen a Committee to procure some clergyman to deliver an address at some special meeting, which they are authorized to call.

A subscription was started in aid of the funds of the American Missionary Association, suggested by the last resolution, "pledging to that Association our *cordial support*" and about $123 pledged; a portion of which was paid on the spot.

Voted, To adjourn.

A. DRUMMOND, President.

O. H. INGALLS, Recording Secretary.

XXXIIId CONGRESS.

WASHINGTON, February 2.

SENATE.

The Printing Committee reported against the establishment of a Government printing office.

The House bill granting five years additional time as a location of bounty lands issued for war services in 1812, was passed.

Mr. Clayton's Senatorial Balance resolution was adopted.

A resolution offered by Mr. Bright, calling for the Koszta correspondence, was also adopted.

The bill providing accommodations for United States Courts in Massachusetts, was passed.

The Phelps Vermont case was then brought up, but after Mr. Butler had spoken to the question, was postponed until Thursday next.

After a short Executive session the Senate adjourned.

HOUSE.

An amendment to the Deficiency Bill, appropriating $10,000 for completing the Custom House at Louisville, was agreed to, as was one offered by Mr. Benton, appropriating $100,000 for a Custom House at Wilmington, Delaware.

The Committee rose without concluding the business. The report of the Directors of the Florida Railroad Mail was received and ordered to be printed. Adjourned.

TURKISH WAR—BLOODY BATTLES.
SUCCESS OF THE TURKS.
1000 RUSSIANS SLAIN, 4000 WOUNDED.
ALLIED FLEETS IN BLACK SEA.
MILITARY ACTIVITY IN FRANCE.

SLIGHT DECLINE IN COTTON.
FURTHER ADVANCE IN BREADSTUFFS!!

HALIFAX, TELEGRAPH OFFICE, February 4th, 1854.

The Arabia from Liverpool arrive at 1-4 past 12 P. M. with 79 through passengers.

The Pacific arrived at Liverpool Wednesday, Golden Age, Coaling, St. Vincent, Dec. 16th, and sailed 19th, all well.

Turkish War.

Further accounts of the battle of Citale confirming the Turkish successes, have been received. It appears that the Russians were concentrating their forces at Citale to attack Kalafat on the 13th, but on the 6th 15,000 Turks marched out of Kalafat, attacked and stormed Citale, and resumed the conflict in the field on the 7th, renewed the battle on the 8th ending in the evening with total discomfiture of the Russians who confess their loss to be 1000 killed and 4000 wounded including their Generals Aurep and Teinout, wounded.

On the 9th the Turks having remained, overnight on the field beyond Citale attacked the reserve of the Russians and drove them back upon Krajova with loss of cannon and immense slaughter on both sides.

On the 10th, the Turks having razed the Russian fortifications returned to Kalafat. The Turks were commanded in the action by Selim Pasha, Zedinsky and Mehmed Pasha; one of whom, Mehmed, probably, is reported killed.

The above victories were officially announced to the Turkish, French and British embassies.

Very little from Asia. A letter from Tribizond 16th Dec. says Schamyl had defeated the Polish regiment 1200 strong. He has a plenty of provisions and ammunition and is organizing an army in Daghestan. The Abassians are in alliance with him. The Hungarians and Poles who had been waiting at Constantinople for employment, were shipped Jan. 2d for Asian army.

Kmeta declined an Asian command, but offers to serve in Europe.

On the 5th the whole allied fleets were in the Black Sea.

Two ships were sent with the following to the Russian Governor at Sebastopol. "To Governor Sebastopol, conformably with orders from our Governments the British Squadron in concert with that of France, is on the point of appearing in the Black Sea. The object of this movement is to protect the Ottoman Territory from all aggression on its land acts. We apprise you thereof with view to prevent all collision tending to disturb amicable relations existing between our governments while we are desirous of preserving and which no doubt you are equally anxious to maintain, to this end, would feel happy to learn that you, animated by these intentions, had deemed it expedient to give requisite instructions to the Admiral commanding the Russian forces in the Black Sea, so as to hinder any occurrence calculated to endanger peace.

Signed, REDCLIFFE,
BARAGUAY,
D'HILLIERS.

It was at first intended to send a portion of the fleet only into the Black Sea, but rumor reached us that the whole of the Russian fleet had sailed from Sebastopol, consequently the whole of the allied fleet entered.

It is further rumored that Russian ships were off Kertch, probably expecting to intercept the Turkish Convoy which under protection of allies, carries 15,000 men for Asia.

Accounts from Constantinople to the 9th report that it having seen the fleets, consequently they are supposed to have sailed towards Balaclava and coast of Crimea.

The Russians are erecting batteries and have extinguished all light houses.

NEGOTIATIONS.

DECEMBER, 31st.

The Porte made the following modifications to the note of the four powers.

1. Instead of the "evacuation of principalities as soon as possible," say within fifteen days after the acceptance by Russia.

2. The renewal of treaties to be with special reference to the integrity and independence of Turkey. The Porte will ameliorate her administrative system alone and spontaneously.

On receipt at Vienna, the English, French, Austrian, and Prussian representatives met and drew up a Protocol, stating that the Porte's terms were good and satisfactory, when they were immediately sent off by the Courier to Pretersburgh, where they would arrive on the 19th.

The Porte's demand is that the note shall be decisively accepted or rejected within forty days from April 2, and the principalities evacuated with twenty or thirty days of date of the Czar's letter of acceptance. This demand is on the way to Petersburgh.

On the 12th inst., the British and French Ministers at St. Petersburgh, also communicated the Russian Minister of Foreign Affairs the entry of allies into the Black Sea.

The Czar's reply was not known when the Arabia sailed, but all Europe is anxiously awaiting it as indications had already transpired that it would at once withdraw his ambassadors from France and England; and formally declare war.

Nothing else is looked for.

THE LATEST.

The mail of Saturday morning brings nothing really later or reliable. Our Liverpool correspondent has made arrangements to have it telegraphed from Vienna on the instant the intelligence of the Czar's reply, to meet the Arabia. Also despatch came to hand, the presumption is that the reply had not reached that capital.

GREAT BRITAIN.

Parliamentary preparations begin.

Lord Aberdeen will read the Queen's speech to a private meeting of government supporters on the 31st inst. The speech be ng previously revised by the Privy Council. Lord John Russell has sent a circular to members of the House of Commons requesting a full attendance at the opening of the house.

Sir Robert Ingles has resigned his seat.

Mr. Roebuck contradicts that he intends to bring Prince Albert's alleged political intermeddling before Parliament.

England is actively recruiting the Coast Volunteer Artillery and Coast Defence Guard.—Ten thousand men are wanted. Exertions are using also to man the Navy and more ships are fitting out, but apparently no land forces.

Government agrees to send two steamers under Capt. Inglefield to renew the Arctic search.

The decision given in the case of the Liverpool Dock Trustees vs. Brown, Shipley and Co. for steamer Baltic running down Bell Boy, April 16. Decided in favor of the Baltic, on the ground that the steamer was in charge of a Licensed Liverpool Pilot.

Thompson, Brothers & Co., Calico printers, Clitheroe, Manchester, have failed.

The John O. Gaunt, a clipper from Canton, was wrecked at Hollyhead; several drowned. She had a valuable cargo of silk and tea. Belonged to Messrs. Gladstone, Liverpool.

The Daily News publishes the continuation of correspondence to Rev. James C. Richmond's difficulty with Austria. No new facts.

John Duffy has been approved Consul at Galway.

The keeper of Falement Palace officially denies that any meeting of exiled Bourbon family is contemplated there.

French and English Funds are extremely sensitive and have fluctuated greatly both dying ruinous.

FRANCE.

The Bank of France has raised its rate of discount to five per cent. It was said the Bank would lend the government from two to three hundred millions of francs on treasury bonds.

Another important rumor prevailed that it was intended to effect a fusion of the Bank of France with the credit Mobilier, and by a bold expansion of the currency prevent the necessity of a loan.

The offices of Receivers General would then be abolished and the whole revenue received by agents of the Bank. In connection with this arrangement M. Fould would retire, and be succeeded by M. Peregnay. This is believed to be authentic.

The Moniteur publishes a decree extending free trade in breadstuffs between France and England to July 31.

The revenue from indirect taxes last year shows an increase of four millions dollars over the preceding one.

The Duchess of Orleans publishes a letter, December 30th, to Duke Nemours, in which she positively refuses to join the recent fusion of the Bourbon family, but firmly reserves her son's rights to the French throne.

It is rumored that M. Thiers is not disinclined to accept office under the Imperial regime.

Mr. Mason, the American Minister, has arrived at Paris.

There is the greatest activity in the French navy yards. Operatives are ordered to work on Sundays, and every ship possible is to be fitted for sea immediately.

A levy has been made of all seamen between twenty and forty years old, and all Newfoundland fishermen are drafted into the fleet.

Stores for 40,000 soldiers are ready for shipment at Toulon.

SWITZERLAND.

Sessions of the Federal Council and of the Council of State were opened at Berne the 9th. In view of the war prospects, the executive asks for a grant to station a body of troops on the German frontier.

GERMANY.

Baden Diet opened the 12th. The Duke's speech indicates a desire to settle religious difficulties peaceably.

Letters from Carlsruhe of the 13th, say positively that arrangements have been come to between the church and government.

DENMARK.

Russia has made overtures to Denmark for the purchase of the island of Bornholm.

PRUSSIA.

Prussia has completed the purchase from Oldenburgh of Jahde Bay as a naval station. Price 4,000,000 thalers.

AUSTRIA.

France is understood to regard as settled that Austria shall preserve the strictest neutrality in case of war. France will enforce that neutrality.

It is now said that Austria will not contract a loan but devote other means.

ITALY.

The Roman States are suffering a great scarcity of food, especially at Fuenza and Ravenna.

NAPLES.

Scarcity prevails.

The Ex. G. & G. Bueno has failed.

The case of Mr. Carbonetto, an American citizen is unsettled. The American Minister has taken it up warmly. The Neapolitan government are endeavoring to patch it up by bribing Carbone to leave.

The Saranac, with Carroll Spence arrived at the Bay of Naples on the 7th.

The policy of the Neapolitan government in Turkish affairs will follow the lead of Austria.

GREECE.

An Athens letter says the prohibition to export breadstuffs is extended to March 31st and free imports permitted till same date.

There is some difficulty between the Greeks and the Turks in the island of Samos. The British Consul has gone to settle it.

LIVERPOOL COTTON MARKET. Arrivals during the week are very large, and unsold feelings respecting the war cause important to place arrivals in the market as soon as landed. Current qualities American are held lower, whilst low leafy kinds are difficult of sale at irregular prices. Considering the circumstances the trade demand is fair and steady. Sales for the week 68,100 bales of which 33,000 American.

Quotations are—Fair Orleans 6¾d, Middling 6 1-16d, Fair Mobiles 6¾d, Middling 6d, Fair Uplands 6¾d, Middling 5 7-8d, Ordinary 4½d to 5¼d, Inferior 3½d to 4d.

LIVERPOOL BREADSTUFFS. Large arrivals, but all deemed to meet sales until Tuesday the 17th. Markets were languid, but their became more animated. Wheat met good speculative and moderate consumptive demand at 2d to 4d advance on the week.

Flour in good demand at 6d to 1s advance.

Indian Corn—fair business at unchanged rates.

Richardson Brothers quote Western Canada flour at 42s 3d to 43s 9d; Parcels at 44s; Philadelphia and Baltimore, 44s 3d to 44s 6d. Ohio 44s 6d. Sour 38s 6d.

American white wheat 12s 6d to 13s.

Red 12s 6d to 12s 3d.

White Indian Corn 50s to 51s.

Yellow and Mixed 49s to 50s.

Closing active, all prices buoyant.

Most circulars corroborate the above rates.

Dennistown & Co. quote flour 1s, wheat 3d over those quotations.

LIVERPOOL PROVISIONS. Gardiner & Co. report the week's sales above average, at full rates, new coming in slowly, and high prices asked restricts business.

Pork, considerable sales, French better. Disposition to operate in American with several sales. Irish carries ask 96s.

Beef more active. Prices turned upward. Late arrivals new sold readily. Lard in request on account of the high price of tallow. Four hundred tons sold at 60s and 60s to arrive, and 66s and 68s on the spot. Cheese in good demand at full rates.

Tallow not much doing. Petersburgh had sold at 61s 6d and 62s, but higher prices now be handed. A few parcels South American brought 59s 6d and North American 61s 6d and 62s.

LIVERPOOL PRODUCE. Broker's Board &c., report ashes steady 31s 9d and 32s. Pots, Pearl 29s.

SPECIAL TELEGRAPH.

HAVRE, Friday evening, 20th.

Cotton in good demand at reduced prices.

Flour 49f. f. Freights more active, quotations irregular.

ELECTION OF GOVERNOR.

AUGUSTA, Feb. 4.

Crosby is Governor. W. H. W.

NEW PIANO-FORTE ESTABLISHMENT IN BOSTON.—We would call the attention of our readers to the advertisement in to-day's paper of Messrs. Geo. J. Webb & Co.—Mr. Webb is extensively known throughout New England as a Composer and Teacher of Music. He has been induced to give his personal attention to the sale-room thereby subjecting a want long felt by purchasers of instruments. They will sell none but the best—and from Mr. Webb's experience in music, we predict abundant success to this new enterprise. All may show avail themselves of it, either personally or by letter, of Mr. Webb's knowledge and taste, in selecting an instrument, which he will do in good faith.

A wise man desires only what he can gain justly, use honestly, irregularly, and surrender cheerfully. We owe our virtues more to education than nature.—Lord Lytton.

NOTICE.

CHARLES LOWELL, Esq., of Ellsworth, will lecture on MONDAY and FRIDAY Evenings, Feb. 6th and 10th, in the City Hall.

Subject of first Lecture—"True Greatness of Soul."

☞ Tickets 25 cents for both Lectures, to be had at the Bookstores and at the door.

Doors open at 7 o'clock. feb3

☞ To the Ladies.—Hazel's Golden Glass, for the Hair, is a preparation which has no equal. It is highly perfumed, and imparts the fragrance of the most delightful flowers. It makes the hair

SOFT, GLOSSY, AND BEAUTIFUL,

and causes it to grow luxuriantly, preventing it from falling off or turning grey. It cures the dandruff, prevents eruptions forming, and keeps the scalp clean, smooth and healthy. It has cured nervous and sick headache by a single application. Ladies who learn its value in this respect will never be without it. For 25 cts. W. C. HUBD, Proprietor, 304 Broadway, New York. B. E. PERKINS, Agent, Bangor. 1m3 jan31

CEMENT.

BROKEN China, Glass, Earthen Ware, and Fancy Articles of every description, repaired and mended using it as strong as before broken, without injuring its appearance.
The Cement, which has been proved to be of great strength, will be found particularly useful in every family; the simple manner of its application (with a recommendation) The desirable property which it contains in so wonder at that many things will rather break in a fresh place than where they have been mended with it. The variety of purposes for which it may be used are so numerous that it would be difficult to recite them to readers in mending Glass, China, &c., in extraordinary, no ordinary degree of heat affecting it, and as the joints are scarcely perceptible, articles of this kind may be made useful for years which otherwise would have been cast away.

Fashionable Eating House!

Knowles & Johnson,

No. 5 Bowman's Block, East End of Kenduskeag Bridge, Bangor.

WE have opened a beautiful establishment for the sale of

Fruit, Confectionery & Pastry,

and have several apartments and well finished rooms fitted up with Marble Tables, for the purpose of furnishing to gentlemen, and also to ladies and gentlemen, a place to sit in the shape of a Luncheon, or a meal at a comfortable Meal, at any hour of the day and at a moment's notice.
☞ The entrance to the Ladies' Saloon is by the stairway entrance to the Mercantile Association Reading Room.
This is a fast age, and gentlemen visiting the city with their wives do not like a long, tedious waiting for a set and formal dinner under the ponderous machinery of a hotel, and our plan to give them an elegant meal in our Saloon, without the loss of time, and about half the hotel price. A gentleman in a hurry, a gentleman belated or obstructed by a sunny day, can point, get a nice meal without trouble, and with little loss of time.
We have made the beginning in one of the most convenient and popular arrangements suited to the times, and we intend to keep up the respectability, and usefulness

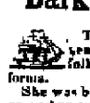
FOR SALE:

Bark Cold Hunter.



This Bark was built at Bangor—is four years old and is now discharging at Norfolk from her second voyage from California.
She was built under the eye of her present owner and no pains or expense, either in materials or workmanship, were spared in the construction.
Her dimensions are 107 feet on deck, 26 feet beam, 11 feet hold, and measures 281 tons. She is copper fastened and coppered to the bends in the spring of 1852. She is a good sailer, having made her first passage home from California in 102 days.
Those wishing to purchase a vessel of her class will find it for their interest to examine her where she now lies.

THE GREATEST MEDICAL DISCOVERY OF THE AGE!

DR. KENNEDY, of Roxbury, has discovered in one of our common pastures a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common Pimple—He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder Liars.) He has now in his possession over two hundred certificates of cures done in a within two months' time of Boston.

Two bottles are warranted to cure a running sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will clear the system of blotches.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of scrofula.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles warranted to cure the worst case of ring worm.

Two or three bottles are warranted to cure the most desperate cases of rheumatism.

Three or four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the very worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted if the directions are complied with.

Nothing has ever approachable to those who have in vain tried all the would-be medicines of the day, so that a common word, grow up on the pastures and along the stone walls, a sure cure for every humor in the system, is now a fixed fact. If you have a humor it has to cure. There are no humbugs, humbugs have been about it, during some days, but not more. Upon the lovers and invalids cities of at in the vicinity of Boston. I know the effects of it in every case. It has given some one of the greatest cures ever done in Massachusetts. I gave it to children a year old; to old people of sixty. I have seen poor, puny, weakly looking children, whose form was soft and shapeless, grow to a perfect size of health and beauty.

To those who are subject to a cough, one bottle will relieve a cure it. It gives great relief in catarrh and the first dose is to prove the truth of it. Where the body is worn down to a mere skeleton, but with a short arrangement of the functions of the stomach, and bowels, a wonderful change takes place in the appetite, and the whole system receives fresh vigor. In fact, all who suppose from Consumption, if there is never a bad result from its use. On the contrary, when that feeling leaves it will feel to all the appearance of consumption, that you may have a new person.

Directions for the use of the most important diseases accompany each bottle.

Price $1 per bottle.

The Boston Journal,

Published Daily, 8cm—Weekly, and Weekly.

TERMS,

DAILY, issued every afternoon, Sundays excepted, Seven Dollars a year

SEMI-WEEKLY, Tuesdays and Fridays, Three Dollars a year

WEEKLY, every Saturday morning, Two Dollars a year

JOURNAL FOR CLUBS, Seventy-five cents per copy.

The proprietors of the BOSTON JOURNAL, some three years ago, adopted the bold and decided plan in the circulation of their paper and have met with a success beyond their most sanguine expectations. Convinced that this country was ripe for a large circulation of a newspaper which, by its size and mechanical execution, should be afforded at a low price, they commenced the publication of a paper which, in the course of a few years, has attained a circulation unequalled by any other paper in New England, and which, by its steadily increasing subscription list, is rapidly approaching the circulation of the London Times. To accomplish this result, they were obliged to expend a large amount of money, more than they were justified in doing by the ordinary rules of business, but they were determined to keep the price of their paper so low that every man could afford to take it, and every family could afford to have a copy of the Boston Journal.

THE DAILY JOURNAL,

Although published at the low rate of TWO CENTS a copy, contains MORE READING MATTER than any other daily paper in Boston. When published

Morning and Evening

and circulated in town it contains THE VERY LATEST NEWS received by the Mail and Express up to the moment of publication. It is the determination of the proprietors to make it complete in every sense of the word.

A NEWSPAPER!

and as such it will report and record the doings of all parties and sects. It will give full and complete reports of the sittings of the Supreme, Police and Municipal Courts; doings of the Stock Exchange and Money Articles from a corps paid to procure full reports of the debates in Congress, all reports of all acquired interest, full and complete accounts of Public Meetings—with copious reports of the speeches, when they can be procured, &c. &c. Indeed, the paper will be the same as a daily history of passing events and everything of general interest which takes place at home or abroad. By arrangements made to establish EXTENSIVE CORRESPONDENCE, and by a liberal use of the

Magnetic Telegraph,

the Journal will at all times be in possession of the latest News; and by the public then of a complete paper both

MORNING AND EVENING,

the proprietors are enabled to give to

Every Mail and Express!

which leaves this city during the day, the latest news not anticipated by them by 12 o'clock, an advance of some papers which print only one edition daily. The Boston Journal is the largest in size of any NEWSPAPER PUBLISHED IN NEW ENGLAND, and since the ENLARGEMENT OF ITS CYLINDER PAST PRESSES, capable of printing TEN THOUSAND AN HOUR, and we are thus enabled to print as many until the last moment, and still supply the demand, however large.

As many specimens of the size and which has attended the publication of the Journal, the proprietors would state that its circulation is now more than TEN TIMES AS LARGE as in 1833—and since that SIX TIMES AS LARGE as in 1846—periods of six and five years—and that its present circulation is larger than at any time during the last three years. It is now published in LARGER EDITIONS BY THOUSANDS THAN ANY SUBSCRIPTION OR TWO CENT PAPER PUBLISHED IN BOSTON OR NEW ENGLAND!

Subscription will be received or sent, by express at the rates mentioned above for any length of time the subscriber may wish. It is the best of advertising mediums, and all kinds of business, both literary and all parts of Boston and all adjacent towns, both literary and

of any subscription paper in New England. Advertisements in the Weekly, Semi-Weekly, or Custom a Journal, is to be subject to an established change to each paper.

THE SEMI-WEEKLY JOURNAL

is published Tuesdays and Fridays mornings, at Four Dollars a year in advance. It contains such interesting and judicious matter of the Daily as to render it a valuable newspaper circulation.

THE WEEKLY JOURNAL

is made up expressly for country circulation, and contains a vast amount of miscellaneous and news matter, reports of Lectures, meetings, &c. It is published every Tuesday morning, at Two Dollars a year in advance, invariably printed on a

PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS WITH U.S. PATENT OFFICE, *WASHINGTON.*

No. 22 State Street, . . Boston.

IMPORTANT INFORMATION TO INVENTORS. The subscriber (late Agent of the U. S Patent Office, under the Act of 1837) determined to present advantages, in applying for patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS [instead of twenty, as required by others] will be required by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments, and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringements of patents.

Inventors can not only have obtain their specifications on the most reasonable terms, but can avail themselves of the experience of 20 years practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries, besides being saved a journey to Washington, the most great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar. Assignments recorded at Washington.

R. H. EDDY.

Late Editor of Patents.

"During the time I occupied the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States and have no hesitation in assuring inventors that they cannot employ a person in the transaction of their business, and more capable. During the time my applications were there, I secure from them an early and favorable consideration at the Patent Office

TESTIMONIALS.

The following certificate from Dr. John C. Warren, of Boston, was given 17 years since, but was not necessary.

Boston, Jan 5, 1853.

Having had occasion to observe that some persons fitted with Trusses, have suffered much from the want of suitable workmen to accommodate Trusses to the peculiarities of their cases, I have been pleased to inform the Agent of the Company of Mr J. F. Foster to supply the deficiency now created by the death of Mr. Burgess. After much opportunity of observation of his work, I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating to the variety of cases which occur. I feel called upon to express this my opinion and to the public as a person well fitted to supply their wants in regard to these instruments.

JOHN C. WARREN, M. D.

The undersigned take great pleasure in recommending to the notice and consideration of those who are unhappily afflicted with Hernia, Mr. James Frederick Foster, as a skilful and competent person in the manufacture and fitting of Trusses. We have employed him (some of us for several years) and therefore speak from personal knowledge of the patients. His Patent Elastic Stocking is a convenience to the afflicted, and the last number of individuals whom he has relieved in a variety of cases, are, we think, in our opinion, equal, if not superior to any manufactured in the middle. Rev. Father Dix, Dr. Hayes, Foster, of Charlestown, was master of the Poor-house in that town for upwards of twenty years, during which period Mr Foster attended house if not the oftener, and made applications of Trusses to a great the ery of cases, with great success, so as not to each case of a new complaint and a new and improved Truss.

It is well known to all who have occasion to wear a Truss, that its great excellence consists in the adaptation to the body, as the same is relieving the patient. Any one may make a Truss, but it takes but a skilful practitioner to apply it to the best advantage to the family, and eminently cure the complaint.

Our experience has long since proved that Mr. Foster has thoroughly acquired this knowledge. The certificates of Dr. J. C. Warren, and other eminent surgeons, which he has shown to us, fully sustain the opinion we have expressed.

DR. MORSE'S

Invigorating Cordial,

A

Phenomenon in Medicine.

Health Restored & Life Lighened by Dr. Morse's Invigorating Elixir, or Cordial.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as safe and speedily safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all *pills*—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to out-weigh the good which they do. Another objection is that their operation is violent and exhausting, and that comparatively few of the ingredients of which they are composed are known to the profession. Hence the uncertainty of their operation, and the frequency with which they fail to produce the desired effect. Dr. MORSE'S INVIGORATING ELIXIR OR CORDIAL were devised to obviate these objections. The public have received them with favor, and they have become a standard remedy in many families. They are composed entirely of vegetable matter, which is known to be safe and certain in its operation, and that the patient is informed of the kind and quantity of the ingredients of which they are composed, so that, in case of any kind of disease, he can at once apply the proper remedy. The Cordial is the best blood purifier ever discovered, and will relieve the most inveterate case of Scrofula or Salt Rheum in a short time. Those who have been long afflicted with Dyspepsia, Liver Complaint, Nervousness, Costiveness, Piles, Colic, Dysentery, Humors, Scrofula, Rheumatism, Colds with soreness of the body, Ulcers, and infirmity of the blood; in short, any and every disease where a purgative is required, will find it to be wonderfully beneficial. For the benefit of those afflicted with the evils of dyspepsia, &c., the bottles, executed youth, the adult or man of maturity, the victim of nervous depression, or enfeebled intellect from general debility, or from the weakness of sexual organs, which entail impending ruin, permanent relief, from the use of Dr. Morse's Invigorating Cordial and Elixir, is confidently guaranteed. The beneficial effects appear to be almost instantaneous, and the medicine is entirely vegetable, containing no mineral or poisonous drug whatever. To those whose nervous prostration is the result of secret habits, the Cordial will prove a perfect antidote, and will restore the patient to perfect health and vigor. To any one suffering
